PROCEEDINGS OF WORKSHOP ON GRIDS  
IN ANISOTROPIC SPACES

*Boluchevskaya A.V.*  
Piecewise smooth approximation for elliptic systems solutions ..... 4

*Grigoryeva E.G.*  
Estimates of Sobolev constant ..... 17

*Igumnov A.Yu.*  
On tetrahedron systems satisfying Delone of empty ball condition ..... 23

*Keselman V.M.*  
Euclidean isoperimetric inequality on non-compact Riemannian manifold ..... 33

*Klyachin A.A.*  
Uniform triangulation of planar domains ..... 43

*Kudryavtseva O.S.*  
Fractional iteration of functions analytic in the unit disk, with real coefficients ..... 50

*Poluboyarova N.M.*  
Some estimates of  $G$ -capacity on extremal surfaces and its applications ..... 63

*Romanova I.A.*  
 $N$ -solutions of minimal surface equation ..... 75

*Sevost'yanov E.A., Salimov R.R.*  
The analogue of the Lavrent'ev – Zorich global homeomorphism theorem for the mappings  
with non-bounded characteristics ..... 80

*Sharapov V.G.*  
Invariant measures of quasiendomorphisms given by nowhere differentiable maps ..... 91

*Shirokiy A.A.*  
Prior estimation of gradients' difference and their consequences ..... 94

***CHEMICAL PHYSICS***

---

---

***Kichigina A.O., Ivanov A.I.***

Manifestation of inertial component of medium relaxation in hot transition kinetics ..... 102

***Fedunov R.G., Ivanov A.I.***The influence of the energy parameters of donor-acceptor complexes  
on transient absorption dynamics of charge transfer state ..... 110***Titov V.A.***

Active media of conglomerating film from methan with chlorine at helium temperature ..... 118

***Ivanchenko G.S., Nevzorova Yu.V.***

The influence of external electric field on zonal structure of graphene nanoribbon ..... 126

***Ivanchenko G.S., Nevzorova Yu.V.***

The conductivity of a two-layer graphene nanoribbon in an external electric field ..... 133

***COMPUTER MODELING***

---

---

***Pisarev A.V., Khrapov S.S., Khoperskov A.V.***The numerical scheme based on a combined SPH-TVD  
approach: simulation of shear flows ..... 138
